

RECOUNT FOR CUNNEA TO BE DECIDED TOMORROW

On Judge Baldwin's decision tomorrow on three protested precincts depends the continuance of the recount in the contest begun by William A. Cunnea, Socialist, for the office of state's attorney, to which Maclay Hoyne was elected on the face of the returns last November.

The three precincts are the tenth and twenty-third in the First ward and the twenty-eighth in the Second ward. Several ballots were alleged to have been marked for Hoyne in pencil, the top of the ticket being marked in ink. On these ballots it is claimed Hoyne was the only Democrat voted for. The twenty-third precinct in the First ward comprises the major portion of the red light district. No tally sheets were returned from this precinct, which is controlled by Jim Colisemo, levee king.

If Judge Baldwin decides in favor of Cunnea it will mean a loss of more than 400 votes for Hoyne. These votes, with the heavy gains Cunnea has already made, will make it impossible to deny his demand for a full recount.

In today's count of six precincts in the Sixth ward Cunnea made a net gain of two votes. His total gain to date is 2,037 votes.

Cunnea has made claims of glaring frauds in ten wards not yet counted. In one alone, the Twentieth, he said his total would be increased 3,000 votes. The wards in which he declares

frauds were practiced are the Eighteenth, Twentieth, Twenty-first, Twenty-ninth, Thirtieth, Thirty-first, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth.

"In the Thirty-fourth ward the judges split my votes impartially between the Republican and Democratic candidates," said Cunnea.

FOUR WITH DIPHTHERIA ESCAPE FROM HOSPITAL

The police have been unable to find Edward Zupan, 16, 2326 South Hamlin avenue; Tom Coffinberry, 36, 5900 South Michigan avenue; Arthur Williams, 30, 2932 Lake Park avenue, and Wm. Ayers, 25, 2734 Indiana avenue, who escaped from the isolation hospital last night.

The men all were suffering from diphtheria. It is feared that they will cause a further spread of the already alarming epidemic of that disease.

Teacher—Now, Tommy, suppose you had two apples and you gave another boy his choice of them. You would tell him to take the bigger one, wouldn't you? Tommy—No. Teacher—Why? Tommy—'Cos 'twouldn't be necessary.
